

Boomerang Health: SickKids' Clinic in Vaughan

SickKids' Boomerang Health is an independent healthcare centre, located in York Region, that provides greater access to community-based services for children and adolescents. Through our interdisciplinary team, we offer physician and rehabilitation and developmental services, including group therapy, and workshops.

We are committed to helping caregivers find solutions and manage their children's health and well-being. We do this by striving for a seamless and positive healthcare experience, and providing high standards of care.

We are committed to working together, learning and creating an environment where everyone feels safe, represented, included, respected and valued at Boomerang Health. We cannot do this without a strong commitment to equality, diversity and inclusion. As people and healthcare professionals, we stand together against racism and oppression which have a huge impact on the health of the many communities we serve.
